

PLC AGENDA

SCIENCE DEPARTMENT • LESSON INTERNALIZATION & GOAL SETTING

From Evidence to Proposed Goals

Use current student evidence and the Lesson Internalization Tool to draft the Student Learning and Professional Practice SMART Goals.

TUESDAY, SEPTEMBER 29, 2026

41 MINUTES

GRADES 9–12 SCIENCE • BRING FORMS & EVIDENCE

TODAY'S OUTCOME Leave with a substantially drafted Goal Setting Form: one Student Learning SMART Goal, one connected Professional Practice SMART Goal, and a clear measure or evidence source to revisit.

WHY THIS PLC MATTERS The September PLC cycle moved from planning and student evidence to feedback, student action, and next-lesson revisions. Today records the student-learning priority and the educator practice that can move it forward.

PROTOCOL CONNECTION

Every Day Question 1: identify what students are learning, mastery evidence, and the current learning pattern. Questions 3–4: identify the educator practice that can respond.

WHAT TO BRING

Goal Setting Form; BOY benchmark, common assessment, student work, exit response, or observation notes; Lesson Internalization Tool.

FOCUS TO PROTECT

Draft goals from available evidence—not a generic activity, an invented number, or a list of every instructional priority.

TODAY'S PLC PLAN

TIME (MIN)	FOCUS	WHAT TO DO	PRODUCT / CHECK
0:00–3:00	Reconnect	Review the evidence-to-action cycle from September. Open the Goal Setting Form and select the evidence you will use today.	Form + evidence ready
3:00–8:00	Name the learning priority	Use Question 1 to restate the grade-level learning and describe the current student pattern shown by your evidence.	Evidence statement
8:00–14:00	Choose the practice focus	Use Questions 3–4 to identify one instructional practice—feedback, facilitation, discourse, access, engagement, or pacing—that can address the learning need.	Practice focus
14:00–31:00	Protected form work	Draft both proposed SMART Goals on the Goal Setting Form. Connect the Professional Practice Goal directly to the Student Learning Goal.	Draft proposed goals
31:00–37:00	Course-alike SMART check	Use a colleague to check that the goals are specific/strategic, measurable, action-oriented, realistic/rigorous, and timed/tracked.	Strengthened goals
37:00–41:00	Close & save	Mark the evidence source, measure, review point, and remaining revisions. Bring the draft Goal Setting Form on Friday.	Saved draft form

PROTECTED INDIVIDUAL WORK WITH COLLEAGUE SUPPORT

WORK WITH COLLEAGUES

WHAT TO DO Complete the designated form work individually first; use colleagues for clarification, feedback, and calibration.

- 1. Start with the evidence:** Select one available evidence source and name the student-learning pattern it shows.
- 2. Draft the Student Learning Goal:** Name the outcome, baseline/evidence, measure, and review point.
- 3. Identify the practice lever:** Use Questions 3–4 to name the teacher action most likely to support the goal.
- 4. Draft the Professional Practice Goal:** Name the observable educator practice and the student evidence you will review.
- 5. Use a SMART check:** Ask a colleague to clarify the learning, measure, action, and timeline.

USE THIS REFERENCE DURING GROUP WORK

GOAL SETTING FORM

Draft both proposed goals. Individual and team goals may be used as appropriate; each goal should remain meaningful to the course and students.

LESSON INTERNALIZATION LINK

Question 1 anchors the Student Learning Goal in learning and mastery. Questions 3–4 help identify the Professional Practice Goal.

SMART CHECK

Specific & Strategic; Measurable; Action-Oriented; Rigorous, Realistic & Results-Focused; Timed & Tracked.

COLLABORATION IN PRACTICE Protect time for thoughtful individual work; use respectful, student-centered feedback to make the next decision clearer.
