

PLC AGENDA

SCIENCE DEPARTMENT • LESSON INTERNALIZATION & GOAL SETTING

Use Self-Assessment to Strengthen the Goals

Use the Self-Assessment Form and Lesson Internalization Tool to confirm that the drafted goals respond to student learning and a meaningful area of practice.

FRIDAY, OCTOBER 2, 2026

46 MINUTES

GRADES 9–12 SCIENCE • BRING FORMS & EVIDENCE

TODAY'S OUTCOME Leave with Self-Assessment Part 1 and Part 2 substantially completed, two focus indicators or areas of practice identified, and revised goal language if the evidence calls for it.

WHY THIS PLC MATTERS The Goal Setting Form names what students need and what educators will do. The Self-Assessment makes sure that the goal is grounded in evidence and an authentic area of professional practice.

PROTOCOL CONNECTION

Question 1 supports Part 1: student learning, growth, and achievement. Questions 3–4 support Part 2: the facilitation, feedback, access, engagement, and pacing practices connected to the goals.

WHAT TO BRING

Draft Goal Setting Form; Self-Assessment Form; the evidence used Tuesday; Lesson Internalization Tool; district performance rubric or priority indicators if available.

FOCUS TO PROTECT

Use the Self-Assessment to refine and support the goals —not to start over or turn the work into a rating exercise.

TODAY'S PLC PLAN

TIME (MIN)	FOCUS	WHAT TO DO	PRODUCT / CHECK
0:00–4:00	Reconnect	Bring forward the draft Goal Setting Form. Restate the student-learning pattern and the practice lever you selected.	Goals + evidence ready
4:00–12:00	Complete Part 1	Cite the student-learning strength and high-priority concern using available assessment, student-work, participation, or feedback evidence.	Part 1 draft
12:00–20:00	Connect to the protocol	Use Questions 3–4 to identify what teachers and students will experience differently when the practice is implemented.	Practice connection
20:00–35:00	Complete Part 2	Identify areas of practice that support the goals. Choose two focus indicators or practice areas that are meaningful and observable.	Part 2 draft + focus areas
35:00–42:00	Course-alike alignment	Check that the Self-Assessment and goals tell the same story: evidence → learning need → instructional response.	Aligned forms
42:00–46:00	Close & prepare	Note revisions to make on the Goal Setting Form and bring both forms Monday for the Educator Plan.	Ready for plan

PROTECTED INDIVIDUAL WORK WITH COLLEAGUE SUPPORT

WORK WITH COLLEAGUES

WHAT TO DO Complete the designated form work individually first; use colleagues for clarification, feedback, and calibration.

- 1. Use Part 1 for student learning:** Name a strength and a high-priority concern based on the same evidence used to draft the Student Learning Goal.
- 2. Use Questions 3–4:** Consider facilitation, feedback, discourse, access, engagement, pacing, and the student experience.
- 3. Use Part 2 for practice:** Identify the educator practice strength and high-priority growth area connected to the goal.
- 4. Choose two focus areas:** Select indicators or practice areas that are observable in lessons and useful for growth.
- 5. Refine the goal wording:** Adjust only if the Self-Assessment reveals a clearer or more appropriate focus.

USE THIS REFERENCE DURING GROUP WORK

SELF-ASSESSMENT PART 1

Briefly cite student-learning strengths and high-priority concerns using evidence that can be revisited throughout the year.

SELF-ASSESSMENT PART 2

Briefly cite strengths and high-priority areas for growth in professional practice. Focus on meaningful indicators, not every indicator.

ALIGNMENT CHECK

The evidence, Student Learning Goal, Professional Practice Goal, and two focus areas should reinforce one clear improvement story.

COLLABORATION IN PRACTICE Protect time for thoughtful individual work; use respectful, student-centered feedback to make the next decision clearer.

TEACHER RUBRIC CONNECTION Standard IV: IV-A-1 Reflective Practice • IV-A-2 Goal Setting • IV-C-1 Professional Collaboration
