

PLC AGENDA

Rehearse, Review & Refine

Check the student experience, strengthen the facilitation plan, and leave ready to teach.

MONDAY, SEPTEMBER 14, 2026

41 MINUTES

GRADES 9–12 SCIENCE • BRING THE SAME LESSON FORWARD

TODAY'S OUTCOME Leave with a ready-to-teach lesson plan that includes one visible refinement, prepared materials and transitions, and a clear plan for collecting student evidence.

WHY THIS PLC MATTERS Rehearsing and refining before students experience the lesson surfaces unclear directions, pacing issues, and missed access points—leading to a stronger student experience and clearer evidence of learning.

PROTOCOL FOCUS

Lesson Internalization Tool — Every Day Question 4, Team Deep Dive Step 5, and after-lesson reflection: plan the student experience, materials, pacing, and next instructional decision.

WHAT TO BRING

The complete lesson plan from September 8 and 11; teacher edition; student task/materials; Lesson Internalization Tool; materials or slides needed to rehearse the key moment.

FOCUS TO PROTECT

Test the student experience. Rehearse the launch, the likely responses, and the feedback—not a teacher lecture. Refine access and facilitation without lowering the cognitive demand.

TODAY'S PLC PLAN

TIME (MIN)	FOCUS	WHAT TO DO	PRODUCT / CHECK
0:00–4:00	Reconnect	Bring forward the complete plan: learning, relevance, mastery, key thinking, anticipated responses, facilitation, and access supports.	Complete working draft
4:00–10:00	Student-experience check	Check whether learning is visible, time protects the thinking, materials/transitions are ready, and students can enter the work.	One priority adjustment
10:00–18:00	Rehearse key moment	Practice the launch and a likely student response. Try the question, feedback, or discourse move planned in the lesson.	Rehearsed facilitation move
18:00–29:00	Peer feedback & refinement	Exchange plans. Use I Notice, I Wonder, and I Suggest to offer feedback that prompts a concrete revision.	Actionable peer feedback
29:00–37:00	Finalize team work	Use the feedback to mark one meaningful refinement and complete the ready-to-teach check below.	Ready-to-teach plan
37:00–41:00	Reflection & close	Write: What refinement will most improve students' experience of this lesson?	One visible refinement

PROTECTED COLLABORATIVE WORK

WORK WITH COLLEAGUES

WHAT TO DO Complete these steps with your course-alike team or co-teaching partner.

- 1. Check the student experience:** Review visibility of learning, protected thinking time, materials, safety, grouping, transitions, and student entry into the task.
 - 2. Rehearse the launch and response:** Practice how you will frame purpose and launch the key task; respond to a strong, partial, or emerging student idea.
 - 3. Exchange feedback:** Use “I Notice,” “I Wonder,” and “I Suggest.” Keep feedback specific, evidence-based, and focused on what students will experience.
 - 4. Mark the refinement:** Make one change visible in the plan, materials, questions, success criteria, pacing, grouping, or access supports.
- ✓ **Completion check:** Each teacher leaves ready to teach, with the learning goal and mastery task clear, the key thinking protected, materials prepared, and one refinement visibly marked.

USE THIS REFERENCE DURING GROUP WORK

STUDENT-EXPERIENCE CHECK

Confirm that learning is visible, time protects the thinking, materials and safety needs are ready, transitions are clear, and students can enter the work.

REHEARSE & FEEDBACK

Test the launch and one likely response. Use I Notice, I Wonder, and I Suggest to exchange feedback that prompts a specific next action.

READY TO TEACH

Mark one visible refinement in the lesson. Confirm the mastery task, key thinking, access supports, and the evidence you will collect after teaching.

COLLABORATION IN PRACTICE Collaborate as a professional learning team: rehearse with curiosity, give specific feedback that prompts action, build on the strengths already present, and keep every decision connected to students' experience.
