NEW BEDFORD HIGH SCHOOL · SCIENCE DEPARTMENT PLC

# Prepare and Share an Upcoming Lesson

Make the plan stronger before students meet it.

**MONDAY, NOVEMBER 9, 2026** | **46 MINUTES** | **GRADES 9–12 SCIENCE**

## TODAY'S OUTCOME

**Leave with:** A stronger plan for one upcoming lesson — and the evidence you will collect when you teach it.

## TODAY'S PLC PLAN

| | | | |
|---|---|---|---|
| **0–4 MIN** | **Frame**<br>Clarify the purpose and today's outcome: strengthen an upcoming lesson and identify the evidence to collect. | PRODUCT | **Shared purpose** |
| **4–9 MIN** | **Lesson goal**<br>Name the standard, language demand, goal, and success criteria; identify the task that makes thinking visible. | PRODUCT | **Goal + criteria** |
| **9–30 MIN** | **Share rounds**<br>In pairs or triads, use three seven-minute rounds: share (3 min), ask (2 min), and record one change (2 min). | PRODUCT | **One planned change** |
| **30–40 MIN** | **Revise the plan**<br>Make the goal student-facing, protect the thinking task, and choose evidence of understanding. | PRODUCT | **Revised plan** |
| **40–46 MIN** | **Close & prepare for Tuesday**<br>Name the evidence you will collect. Bring the revised plan, student task, and criteria back Tuesday. | PRODUCT | **Evidence + next step** |

### BRING

One upcoming lesson plan; the student task or materials; the standard and success criteria; and the Lesson Internalization Tool.

### PROTOCOL CONNECTION

Questions 1 and 2: clarify what students are learning and how you will know, and consider the identities, perspectives, and experiences students bring.

**Feedback anchor:** Be specific, curious, and practical. This is not a ranking or evaluation of teachers or classes.
